Darling Ingredients Inc. Reports First Quarter 2020 Financial Results

IRVING, Texas, May 6, 2020 /PRNewswire/ -- Darling Ingredients Inc. (NYSE: DAR, "Darling") --

First Quarter 2020

- Net income of \$85.5 million, or \$0.51 per GAAP diluted share
- Net Sales of \$852.8 million
- Adjusted EBITDA of \$213.3 million
- Diamond Green Diesel ("DGD") earned \$2.63 EBITDA per gallon on approximately 79 million gallons sold
- Repurchased \$55 million of common stock

Darling reported net sales of \$852.8 million for the first quarter of 2020, as compared with net sales of \$835.1 million for the same period a year ago. Net income attributable to Darling for the three months ended March 28, 2020 was \$85.5 million, or \$0.51 per diluted share, compared to a net income of \$18.0 million, or \$0.11 per diluted share, for the first quarter of 2019.

"We delivered a strong first quarter performance consistent with the guidance we provided on our February 2020 earnings call, generating \$213 million of combined adjusted EBITDA," said Randall C. Stuewe, Chairman and Chief Executive Officer of Darling Ingredients Inc. "The diversity of our global platform from food to feed to green hydrocarbon is helping us to weather the COVID-19 pandemic."

"We continue to execute our global strategy of creating sustainable ingredients for feed, food and fuel, from the waste streams of the food processing industry and being a leader in the production of green hydrocarbons to assist with global decarbonization. First and foremost, Darling has acted to ensure that we are providing a safe work environment for our employees across our network of 200+ locations around the world," added Stuewe. "We are also taking the necessary steps to safeguard our balance sheet in the current environment. While we anticipate some disruption and potential lighter volumes of raw materials processed in the coming quarter, accordingly, we are committed to managing and reducing operating expenses across the business. Consistent with this approach, we are targeting a deferral of 15% to 20% in capital expenditures until the uncertainty surrounding the COVID-19 outbreak improves."

"In April, DGD had accumulated over \$600 million of cash, sufficient to fund the phase II 2020 expansion of DGD and provide each joint venture partner with a \$125 million distribution. Also, Darling anticipates receiving an additional \$65 to \$75 million in July consistent with the distribution policy at DGD," stated Stuewe.

As of March 28, 2020, Darling had \$76.4 million in cash and cash equivalents, and \$795.9 million available under committed revolving credit agreements. Total debt outstanding at the end of the first quarter of 2020 was \$1.75 billion.

Under Darling's current share repurchase authorization, the Company repurchased 2.2 million shares of common stock during the first quarter for a total of \$55 million. Darling has approximately \$126 million remaining under its current authorization.

Combined adjusted EBITDA was \$213.3 million for the first quarter of 2020, compared to \$133.3 million for the same period in 2019.

Adjusted EBITDA (Non-GAAP)	\$ 109,680	\$ 103,438						
Foreign currency exchange impact	2,158 (1)	-						
Pro forma Adjusted EBITDA to Foreign Currency (Non-GAAP)	\$ 111,838	\$ 103,438						
DGD Joint Venture Adjusted EBITDA (Darling's Share)	\$ 103,634	\$ 29,828						
Darling plus Darling's share of DGD Joint Venture Adjusted EBITDA	\$ 213,314	\$ 133,266						

(1) The average rate assumption used in this calculation was the actual fiscal average rate for the three months ended March 28, 2020 of \in 1.00:USD\$1.10 and CAD\$1.00:USD\$0.75, as compared to the average rate for the three months ended March 30, 2019 of \in 1.00:USD\$1.14 and CAD\$1.00:USD\$0.75, respectively.

About Darling

Darling Ingredients Inc. is a global developer and producer of sustainable natural ingredients from edible and inedible bio-nutrients, creating a wide range of ingredients and specialty solutions for customers in the pharmaceutical, food, pet food, feed, technical, fuel, bioenergy, and fertilizer industries. With operations on five continents, the Company collects and transforms all aspects of animal by-product streams into useable and specialty ingredients, such as collagen, edible fats, feed-grade fats, animal proteins and meals, plasma, pet food ingredients, organic fertilizers, yellow grease, fuel feedstocks, green energy, natural casings and hides. The Company also recovers and converts recycled oils (used cooking oil and animal fats) into valuable feed and fuel ingredients and collects and processes residual bakery products into feed ingredients. In addition, the Company provides environmental services, such as grease trap collection and disposal services to food service establishments. The Company sells its products domestically and internationally and operates within three industry segments: Feed Ingredients, Food Ingredients and Fuel Ingredients. For additional information, visit the Company's website at http://www.darlingii.com.

Darling Ingredients Inc. will host a conference call to discuss the Company's first quarter 2020 financial results at 8:30 am Eastern Time (7:30 am Central Time) on Thursday, May 7, 2020. To listen to the conference call, participants calling from within North America should dial 1-844-868-8847; international participants should dial 1-412-317-6593. Please refer to access code 10142656. Please call approximately ten minutes before the start of the call to ensure that you are connected.

The call will also be available as a live audio webcast that can be accessed on the Company website at http://ir.darlingii.com. Beginning one hour after its completion, a replay of the call can be accessed through May 14, 2020, by dialing 1-877-344-7529 (U.S. callers), 1-855-669-9658 (Canada) and 1-412-317-0088 (international callers). The access code for the replay is 10142656. The conference call will also be archived on the Company's website.

<u>Use of Non-GAAP Financial Measures:</u>

Adjusted EBITDA is not a recognized accounting measurement under GAAP; it should not be considered as an alternative to net income, as a measure of operating results, or as an alternative to cash flow as a measure of liquidity and is not intended to be a presentation in accordance with GAAP. Adjusted EBITDA is presented here not as an alternative to net income, but rather as a measure of the Company's operating performance. Since EBITDA (generally, net income plus interest expenses, taxes, depreciation and amortization) is not calculated identically by all companies, this presentation may not be comparable to EBITDA or Adjusted EBITDA presentations disclosed by other companies. Adjusted EBITDA is calculated in this presentation and represents, for any relevant period, net income/(loss) plus depreciation and amortization, goodwill and long-lived asset impairment,

interest expense, (income)/loss from discontinued operations, net of tax, income tax provision, other income/(expense) and equity in net loss of unconsolidated subsidiary. Management believes that Adjusted EBITDA is useful in evaluating the Company's operating performance compared to that of other companies in its industry because the calculation of Adjusted EBITDA generally eliminates the effects of financing, income taxes and certain non-cash and other items that may vary for different companies for reasons unrelated to overall operating performance.

As a result, the Company's management uses Adjusted EBITDA as a measure to evaluate performance and for other discretionary purposes. In addition to the foregoing, management also uses or will use Adjusted EBITDA to measure compliance with certain financial covenants under the Company's Senior Secured Credit Facilities and 5.25% Notes and 3.625% Notes that were outstanding at March 28, 2020. However, the amounts shown in this presentation for Adjusted EBITDA differ from the amounts calculated under similarly titled definitions in the Company's Senior Secured Credit Facilities and 5.25% Notes and 3.625% Notes, as those definitions permit further adjustments to reflect certain other non-recurring costs, non-cash charges and cash dividends from the DGD Joint Venture. Additionally, the Company evaluates the impact of foreign exchange impact on operating cash flow, which is defined as segment operating income (loss) plus depreciation and amortization.

<u>Cautionary Statements Regarding Forward-Looking Information:</u>

{This media release contains "forward-looking" statements regarding the business operations and prospects of Darling Ingredients Inc. and industry factors affecting it. These statements are identified by words such as "believe," "anticipate," "expect," "estimate," "intend," "could," "may," "will," "should," "planned," "potential," "continue," "momentum," and other words referring to events that may occur in the future. These statements reflect Darling Ingredient's current view of future events and are based on its assessment of, and are subject to, a variety of risks and uncertainties beyond its control, each of which could cause actual results to differ materially from those indicated in the forward-looking statements. These factors include, among others, existing and unknown future limitations on the ability of the Company's direct and indirect subsidiaries to make their cash flow available to the Company for payments on the Company's indebtedness or other purposes; global demands for bio-fuels and grain and oilseed commodities, which have exhibited volatility, and can impact the cost of feed for cattle, hogs and poultry, thus affecting available rendering feedstock and selling prices for the Company's products; reductions in raw material volumes available to the Company due to weak margins in the meat production industry as a result of higher feed costs, reduced consumer demand or other factors, reduced volume from food service establishments, or otherwise; reduced demand for animal feed; reduced finished product prices, including a decline in fat and used cooking oil finished product prices; changes to worldwide government policies relating to renewable fuels and greenhouse gas("GHG") emissions that adversely affect programs like the U.S. government's renewable fuel standard, low carbon fuel standards ("LCFS") and tax credits for biofuels both in the United States and abroad; possible product recall resulting from developments relating to the discovery of unauthorized adulterations to food or food additives; the occurrence of 2009 H1N1 flu (initially known as "Swine Flu"), Highly pathogenic strains of avian influenza (collectively known as "Bird Flu"), severe acute respiratory syndrome ("SARS"), bovine spongiform encephalopathy (or "BSE"), porcine epidemic diarrhea ("PED") or other diseases associated with animal origin in the United States or elsewhere, such as the outbreak of African Swine Fever ("ASF") in China and elsewhere; the occurrence of pandemics, epidemics or disease outbreaks, such as the current COVID-19 outbreak; unanticipated costs and/or reductions in raw material volumes related to the Company's compliance with the existing or unforeseen new U.S. or foreign (including, without limitation, China) regulations (including new or modified animal feed, Bird Flu, SARS, PED, BSE, ASF or similar or unanticipated regulations) affecting the industries in which the Company operates or its value added products; risks associated with the DGD Joint Venture, including possible unanticipated operating disruptions and issues relating to the announced expansion project; risks and uncertainties relating to international sales and operations, including imposition of tariffs, quotas, trade barriers and other trade protections imposed by foreign countries; difficulties or a significant disruption in our information systems or failure to implement new systems and software successfully, risks relating to possible third party claims of intellectual property infringement; increased contributions to the Company's pension and benefit plans, including multiemployer and employer-sponsored defined benefit pension plans as required by legislation, regulation or other applicable U.S. or foreign law or resulting from a U.S. mass withdrawal event; bad debt write-offs; loss of or failure to obtain necessary permits and registrations; continued or escalated conflict in the Middle East, North Korea, Ukraine or elsewhere; uncertainty regarding the exit of the U.K. from the European Union; and/or unfavorable export or import markets. These factors, coupled with volatile prices for natural gas and diesel fuel, climate conditions, currency exchange fluctuations, general performance of the U.S. and global economies, disturbances in world financial, credit, commodities and stock markets, and any decline in consumer confidence and discretionary spending, including the inability of consumers and companies to obtain credit due to lack of liquidity in the financial markets, among others, could cause actual results to vary materially from the forward looking statements included in this release or negatively impact the Company's results of operations. Among other things, future profitability may be affected by the Company's ability to grow its business, which faces competition from companies that may have substantially greater resources than the Company. The Company's announced share repurchase program may be suspended or discontinued at any time and purchases of shares under the program are subject to market conditions and other factors, which are likely to change from time to time. Other risks and uncertainties regarding Darling Ingredients Inc., its business and the industries in which it operates are referenced from time to time in the Company's filings with the Securities and Exchange Commission. Darling Ingredients Inc. is under no obligation to (and expressly disclaims any such obligation to) update or alter its forward-looking statements whether as a result of new information, future events or otherwise.}
