

Pig feed portfolio

Nutritious, sustainable pig feed ingredients

Sustainable solutions
for animal feed products

Valuable ingredients for pig feed

Sonac processes raw materials of animal origin into valuable and essential ingredients like proteins, fats, specialties and minerals for applications in pig feed. Keywords for Sonac ingredients are natural, digestible, sustainable and safe/traceable.

ANIMAL PROTEINS: INDISPENSABLE BUILDING BLOCKS

- Safe and sustainable, prevent valuable food going to waste
- Perfectly digestible for pigs
- Important for the feed intake stimulation of young pigs and lactating sows
- Contains animal fat which is a source of energy
- Can be used as a concentrated, nutritional binder (Pro-Bind Plus®)

ANIMAL FATS: MAJOR ENERGY SOURCE

Nutritional and technical characteristics of animal fats make it versatile. Animal fats are a major energy source and an indispensable element in commercial pig feed. Sonac offers a complete range of animal fats.

SPECIALTIES: PALATABLE AND BINDING

In particular young piglets need palatable and digestible proteins after weaning in order to stimulate the feed intake. Sonac is a major producer of superior palatable proteins for piglets; porcine plasma (Proglobulin®) and mucosa hydrolizate (MucoPro®). In addition we offer a nutritional and concentrated pellet binder (Pro-Bind Plus®) derived from pure porcine gelatin.

MINERALS: SOLID BASE

Digestible phosphorus and calcium are crucial nutrients for fast growing pigs. Sonac’s Delfos is a highly digestible, safe and sustainable mineral source.

Discover which products can meet your needs in our product matrix

Product application and availability are depending on local legislation. Please contact us for more information.

Proteins		Crude Protein (%)	Minerals (%)
Pork hemoglobin		90%	4%
Poultry meal		62 - 70%	14 - 16%
Poultry meal 50		50%	36%
KeraPro (Hydrolysed feather protein)		85%	1.6%

Fats		Max FFA (%)	Max peroxide (meq/kg)
Animal fat	  	7% / 15%	6
Poultry fat		5% / 10% / 15%	6
Pork fat		1% / 2% / 5% / 15%	3 / 6
Lard		1% / 2%	3 / 6
Tallow / beef fat		1% / 2%	4

Specialties		Crude Protein (%)	In vivo digestibility (%)	Specific characteristics
Pro-Bind Plus®		85%	> 90%	Collagen based pellet binder
MucoPro®		80%	> 99%	Hydrolyzed mucosa protein
Proglobulin®		78 - 80%	96%	Porcine plasma
Hydro-P Premium		> 90%	99%	Hydrolysed porcine collagen

Minerals		Crude Protein (%)	Ca (%) / P (%)	Specific characteristics
Delfos		-	23% / 17%	High digestible di-calcium-phosphate
CollaPhos*		10%	32% / 14%	High bio-available tri-calcium-phosphate (hydroxyapatite)

* Only for outside Europe

Sonac supports you in achieving your ESG goals

Sonac is part of Darling Ingredients, a player with a global footprint and a key role in the animal husbandry industry. Darling Ingredients has committed to Science Based Targets, taking up our role as industry leader and working towards mitigation of climate change. We believe Sonac ingredients, which are locally sourced out of co-products from meat and dairy, can contribute to a more renewable aquaculture industry. Sonac invites you to investigate how together we can achieve this goal.

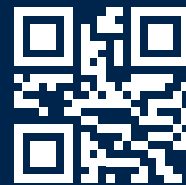

SONAC OFFERS FOR OUR CUSTOMERS:

- Wide range of animal derived ingredients with unique properties
- Worldwide technical support from formulation to finished product
- In-depth product training

Creating high-quality pig feed starts with the highest-quality ingredients

We transform animal-origin materials into valuable fats, proteins and minerals essential for pig diets.
